

Intelsat Licensees hold only non-common carrier radio licenses and international Section 214 authorizations, the Proposed Transaction does not implicate the restrictions on foreign ownership contained in Section 310(b) of the Act.<sup>21</sup> Nevertheless, the Applicants provide the information on ownership, management and control contained in Attachment 3 to assist the Commission in its evaluation of the public interest benefits of the Proposed Transaction.

Pursuant to Sections 214 and 310(d), the Commission must determine whether a specific transfer or assignment involving foreign ownership in Title II and Title III licenses and authorizations would serve the public interest, convenience, and necessity. To that end, under the U.S. WTO commitments, the Commission presumes that investment from WTO Member countries serves the public interest, unless a proposed investment presents a “very high risk to competition” in the United States that the Commission cannot address through conditions, or the Executive Branch raises national security, law enforcement, foreign policy or trade concerns.<sup>22</sup> That standard is amply satisfied here.

Virtually all of the foreign investment contemplated by the Proposed Transaction would come from individuals or entities whose home markets are WTO Member states or the functional equivalent.<sup>23</sup> The Commission therefore must apply a strong presumption that the proposed

<sup>22</sup> See *Rules and Policies on Foreign Participation in the U.S. Telecommunications Market*, 12 FCC Rcd 23891, at ¶¶ 50-58 (1997), *recon. denied*, 15 FCC Rcd 18158 (2000) (“*Foreign Participation Order*”).

<sup>23</sup> As discussed above, one limited partner of the Silver Lake Funds has its principal place of business in Lebanon, a non-WTO Member country, and two limited partners of the Silver Lake funds have principal places of business that are currently unknown. See n.8, *supra*.

foreign ownership would serve the public interest.<sup>24</sup> Indeed, the Commission previously issued a declaratory ruling authorizing substantial foreign ownership of Intelsat under Section 310(b)(4), and previously determined that foreign ownership of Intelsat's non-radio licenses serves the public interest.<sup>25</sup>

Far from causing a "very high risk to competition," the proposed investment would not distort competition in any relevant U.S. market. To the contrary, as described above, the Proposed Transaction would substitute a new controlling investor with no other U.S. telecommunications or satellite-related holdings for the Existing Control Group. At the same time, the Proposed Transaction would promote the ability of capital to enter and exit the communications market – a flexibility that is essential to attracting the investment that FCC-licensed entities require to maintain and expand their services. In addition, the combination of BCP's long-term approach to investment and its management expertise would enable Intelsat to increase its operating efficiency and improve its ability to compete in both domestic and international markets, and enhance Intelsat's ability to provide advanced services to the public. Thus, the proposed foreign investment would further competition in the U.S. market and result in efficiencies and other public interest benefits.

---

<sup>24</sup> See *Foreign Participation Order* at ¶ 11 (concluding that such a presumption "will promote effective competition in the U.S. telecommunications services market by removing unnecessary regulation and barriers to entry that can stifle competition and deprive U.S. consumers of the benefits of lower prices, improved service quality, and service innovations," enable the Commission "to prevent anticompetitive conduct in the provision of international services or facilities by relying on more effective and targeted safeguards," and "encourage foreign governments to implement their commitments to open their telecommunications markets . . .").

<sup>25</sup> *Intelsat-Zeus Order* at ¶ 26 ("Applicants are entitled to a rebuttable presumption that the proposed indirect foreign ownership of [the Intelsat Licensees] would not pose a risk to competition in the U.S. market that would justify denial of the applications . . ."). See also *Intelsat-PanAmSat Order* at ¶ 49 (affirming finding of *Intelsat-Zeus Order* in light of only "immaterial change" in Intelsat's ownership).

*In short, there is no justification for rebutting the strong presumption that the proposed foreign investment would serve the public interest. Commission precedent generally, and the Commission's findings in connection with the Intelsat-Zeus and Intelsat-PanAmSat transactions specifically, fully support this presumption. Moreover, the Proposed Transaction would not distort competition in U.S. markets. Accordingly, the Commission should find that the contemplated foreign investment serves the public interest and approve the Proposed Transaction.*<sup>26</sup>

### **III. TREATMENT OF PENDING APPLICATIONS**

In order to streamline the Commission's review of the FCC-regulated components of the Proposed Transaction, the Applicants respectfully request that the Commission frame any order approving the Proposed Transaction so as to avoid the need for the Applicants to file, and for the Commission to review, additional transfer of control applications substantially duplicating the contents of the Applications. In addition to the licenses and authorizations identified in Attachment 2,<sup>27</sup> Intelsat has various applications and petitions pending before the Commission, and prior to grant of the Applications or consummation of the Proposed Transaction, may file additional applications or petitions, or have currently pending applications or petitions granted. The Applicants therefore request that, consistent with Commission precedent, the grant of the

---

<sup>26</sup> The Applicants have initiated discussions with national security and law enforcement agencies to address any potential concerns those agencies may have with respect to the Proposed Transaction. The Applicants will support a request of these agencies to defer grant of the Applications, without delaying the Commission's consideration of the Applications in any other respect, until the Commission receives notice that all national security and law enforcement concerns regarding the Proposed Transaction have been resolved.

<sup>27</sup> While the Applicants have worked diligently to identify, in Attachment 1, all licenses and authorizations held by the Intelsat Licensees, the Applicants request that Commission approval of the Proposed Transaction include any licenses or authorizations that may have been inadvertently omitted from the Applications.

*Applications include authority for Serafina to acquire control with respect to: (i) all licenses and authorizations issued or assigned to Intelsat or any of its subsidiaries during the pendency of the Applications and prior to the consummation of any approved transaction; and (ii) all applications pending at the time of consummation of the Proposed Transaction.*<sup>28</sup> The Applicants note that under the rules adopted in the *First Space Station Reform Order*, “transfer of control applications are no longer considered major amendments” to pending applications that would necessitate a new public notice period.<sup>29</sup> Thus, consummation of the Proposed Transaction should have no impact on the Commissions’ processing of any of Intelsat’s pending applications.

---

<sup>28</sup> The Applicants will amend all then-pending applications to reflect Intelsat’s new corporate structure.

<sup>29</sup> *Amendment of the Commission’s Space Station Licensing Rules and Policies*, 18 FCC Rcd 10760, at ¶ 140 (2003) (“*First Space Station Reform Order*”).

#### IV. CONCLUSION

For all of the foregoing reasons, the Proposed Transaction would serve the public interest, convenience, and necessity. Accordingly, the Applicants request that the Commission grant the Applications expeditiously.

OWNERSHIP, MANAGEMENT, AND CONTROL  
OF PROPOSED TRANSFEREE  
Page 1

The information set forth below describes the ownership, management, and control of the proposed transferee, Serafina Holdings Limited ("Serafina"), following consummation of the Proposed Transaction.

**I. SERAFINA HOLDINGS LIMITED**

The Proposed Transaction contemplates that Serafina Acquisition Limited will acquire all of the equity interests in Intelsat Holdings, Ltd. ("Intelsat"). Serafina Acquisition Limited is wholly owned by Serafina. Intelsat, Serafina, and Serafina Acquisition Limited are all Bermuda companies. BC Partners Holdings Limited ("BCP"), an investment firm organized under the laws of Guernsey, will indirectly control approximately 71.00 percent of the equity interests in Serafina. Consequently, BCP will control Serafina and, by extension, Intelsat.

The Board of Directors of Serafina will be comprised of four members. BCP will designate two members of the Board. Silver Lake Group, L.L.C. ("Silver Lake"), a U.S.-based investment firm, will designate one member of the Board. Intelsat's management team will designate the final member of the Board. It is anticipated that two members of the Board will be U.S. citizens, and two members of the Board will be citizens of Western European, WTO Member countries. The Board of Directors of Intelsat Holdings, Ltd. and the Board of Directors of Serafina Acquisition Limited will be constituted in the same manner as the Serafina Board.

Table 1 lists the entities that will hold direct equity interests in Serafina. In addition, BCP anticipates that certain members of Intelsat's management team will hold direct equity interests in Serafina. In all cases, equity and voting interests will be identical (i.e., Serafina will issue a single class of voting stock). To summarize:

- (i) **BCP Funds.** Forty-one investment funds ultimately controlled by BCP (the "BCP Funds") will hold approximately 71.00 percent of the equity interests in Serafina. These funds are described in lines 1 through 41 of Table 1.
- (ii) **Silver Lake Funds.** Two investment funds ultimately controlled by Silver Lake Group, L.L.C. (the "Silver Lake Funds") will hold approximately 16.84 percent of the equity interests in Serafina. These funds are described in lines 42 and 43 of Table 1.
- (iii) **Other Serafina Investors.** Banc of America Capital Investors V, L.P. will hold approximately 3.37 percent of the equity interests in Serafina. CSFB Strategic Partners III, L.P. (indirectly controlled by Credit Suisse) will hold approximately 1.35 percent of the equity interests in Serafina. These funds are described in lines 44 and 45 of Table 1. Thirteen members of Intelsat's management team will collectively hold an equity interest in

Serafina of at least 2.13 percent.<sup>1</sup> These individuals are citizens of the following countries: United States (9); Canada (1); France (1); Mauritius (1); and the United Kingdom. This investment is described in line 46 of Table 1. The remaining equity in Serafina, approximately 5.32 percent, is subject to continuing syndication for passive investors by the BCP funds. In the event the full 5.32 percent is not syndicated or acquired by Intelsat management, the Existing Control Group is obligated to acquire the remainder. This remaining equity is described in line 47 of Table 1.

<sup>3</sup> All investors in the Investor Groups are citizens of, or have their principal place of business in, WTO Member countries, with the following exceptions: (i) one limited partner, with a total equity interest of 0.06 percent in the Silver Lake Funds and an indirect equity interest in Serafina of approximately 0.01 percent, has its principal place of business in a non-WTO Member country (Lebanon); and (ii) two additional limited partners of the Silver Lake Funds, with a total equity interest of 1.26 percent in the Silver Lake Funds and an indirect equity interest in Serafina of approximately 0.21 percent, have principal places of business that are currently unknown.

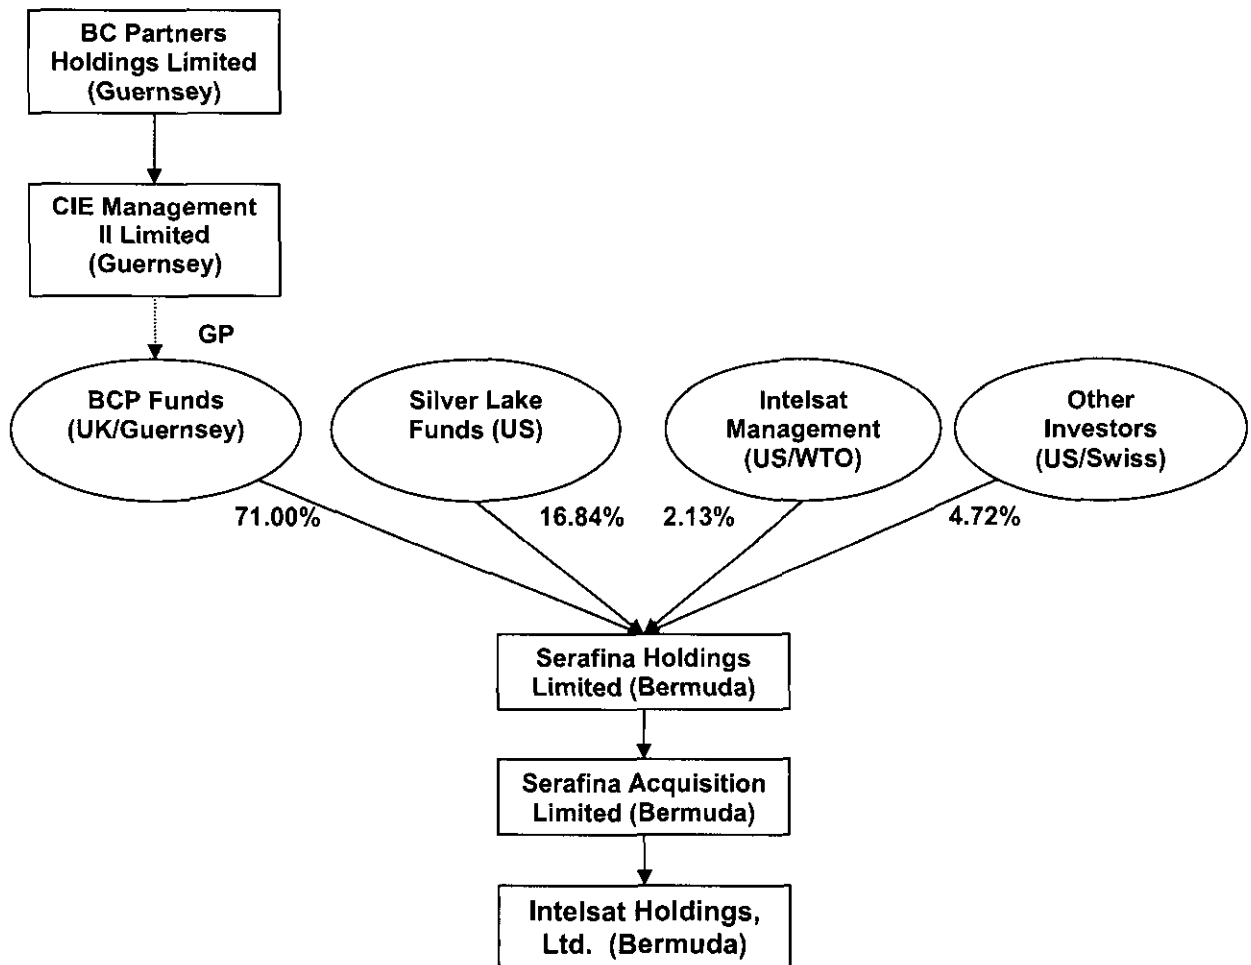

<sup>4</sup> Generally, an Investor Group's indirect equity interests in Serafina (columns 5 and 6) have been calculated by multiplying the Investor Group's levels of U.S. and non-U.S. equity in the Investor Group (columns 3 and 4) by the Investor Group's direct equity interest in Serafina (column 2). However: (i) BCP or its principals control approximately 1.12 percent (0.26 percent U.S. and 0.86 percent non-U.S.) of the equity interests in the BCP Funds; and (ii) Silver Lake Technology Associates III, L.P., the General Partner of the Silver Lake Funds, holds an equity interest of approximately 2.18 percent in the Silver Lake Funds. These interests have not been diluted using the multiplier.

Diagram 1 shows Intelsat's expected ownership structure upon consummation of the Proposed Transaction. The subsequent sections discuss the ownership of the BCP Funds, the Silver Lake Funds, and the other Serafina investors in greater detail.

**Diagram 1: Intelsat Ownership Following Proposed Transaction**

Note: All subsidiaries are wholly-owned unless otherwise indicated. The stated interest of Intelsat management is based on a minimum equity investment by Intelsat management required by the Agreement and assumes a closing date of January 1, 2008. The minimum equity investment will fluctuate in immaterial amounts depending upon the date of the closing. Individual members of Intelsat's management may elect to reinvest additional amounts in the post-transaction Intelsat. To the extent management increases its equity interest, there may be consequent small adjustments in other investors' interests.

**II. THE BCP FUNDS**

Forty-one BCP Funds will collectively hold approximately 71.00 percent of the equity interests in Serafina. Thirty-five of the BCP Funds are constituted as UK limited partnerships, five of the BCP Funds are constituted as French "co-invest" partnerships, and the remaining fund is constituted as a Guernsey limited partnership. CIE Management II Limited ("CIE"), a wholly-owned subsidiary of BCP organized under the laws of Guernsey, serves as General Partner of each of the BCP Funds. Through its control of the BCP Funds, BCP will control Serafina and by extension Intelsat.

BCP is owned by 18 individuals, none of whom holds more than a 10 percent equity or voting interest in BCP. These shareholders are citizens of the following countries: the United States (1); the United Kingdom (4); Germany (3); Italy (4); France (5); and Greece (1). BCP is governed by a six-member Board of Directors. The current members of BCP's Board are citizens of the following countries: United Kingdom (5) and Italy (1).

The economic interests in the BCP Funds are directly held by over 200 passive investors, virtually none of which will have any ability to control, manage, or be involved in the day-to-day business operations or decision-making of the BCP Funds, Serafina, or Intelsat.<sup>6</sup> Passive investors with their principal place of business in the United States hold a total equity interest in the BCP Funds of approximately 34.93 percent, and passive investors with their principal place of business outside of the United States hold a total indirect equity interest in the BCP Funds of approximately 65.07 percent. Only one passive investor in the BCP Funds will hold a total indirect equity interest in Serafina of ten percent or greater. The Ontario Teachers' Pension Plan Board ("Ontario Teachers"), which has its principal place of business in Canada, will control an indirect equity interest in Serafina of approximately 11.45 percent.<sup>7</sup> Ontario Teachers does not currently

<sup>6</sup> The only investors with any ability to control, manage, or be involved in the day-to-day business operations or decision-making of the investment funds, Serafina, or Intelsat are those that are otherwise attributable by virtue of their independent interest in, or affiliation with, BCP. For example, Raymond Svider, a shareholder of BCP and current President of Serafina, holds partnership interests in certain of the BCP Funds. Prior to or simultaneously with the consummation of the Proposed Transaction, all current officers of Serafina will resign.

<sup>7</sup> Ontario Teachers' indirect equity interest in Serafina includes a 10.37% indirect equity interest flowing through the BCP Funds and a 1.08% indirect equity interest flowing through the Silver Lake Funds.

The minimum equity investment will fluctuate in immaterial amounts depending upon the date of the closing. Individual members of Intelsat's management may elect to reinvest additional amounts in the post-transaction Intelsat. To the extent management increases its equity interest, there may be consequent small adjustments in other investors' interests.
